House to renovate on prime location in Mechelen

This house is located on one of the top locations in Mechelen. Within walking distance of the vibrant city center, close to schools and stores and near the highway Brussels-Antwerp. If totally renovated, the property has enormous potential. The entrance hall leads into the living room, with a partially fitted kitchen, dining area, guest toilet and access to the basement. An asset of this property is the terrace where you can relax during spring and summer. Next to it, there is also a storage room that could be used to install a barbecue or an outdoor kitchen. Continuing our exploration, we go to the second floor. Here there are two spacious bedrooms and the bathroom. The latter is equipped with sink, bathtub, shower and a second toilet. The journey continues to the attic space. Here the current owners started the structural works with the aim of creating a third and fourth bedroom. Here is also an adjacent terrace. Discover the possibilities of this top located property and create your gem in the city. Definitely worth a visit!
